## Work Experience

---

### **Software Engineer**, Campus Web Solutions, Auburn University

*May 2021 – December 2023*

- Full-stack web developer specializing in developing robust web applications for Auburn University.
- Designed, developed, and maintained 30+ of Auburn University's most used web applications with a heavy focus on user-accessible development.
- Employed technologies like .NET, JavaScript, HTML, and CSS to build dynamic digital solutions.
- Mentored junior co-ops through extensive peer programming, fostering a collaborative learning environment.
- Adopted agile methodologies, optimizing project workflows and improving team productivity.
- Emphasized mobile responsiveness and executed runtime analyses to ensure optimal performance.
- Led the comprehensive redesign and development of the Auburn University Vice President of Research's website, significantly enhancing its functionality and user experience.

### **Logistics Coordinator**, AuburnHacks

*September 2019 – February 2020*

- Instrumental in organizing a successful 24-hour Hackathon, managing room schedules and staff assignments for seamless event execution.
- Coordinated with catering services to provide meals and refreshments for over 250 participants.
- Managed a 24-hour live assistance chat room, providing prompt and effective support to students and staff.

### **Front Service Clerk**, Publix

*June 2018 – October 2020*

- Provided exceptional customer service and cashier support in a high-volume retail environment.
- Demonstrated strong multitasking skills and adaptability in handling diverse customer queries and checkout processes efficiently.
