SUMMARY

Auburn University senior majoring in Computer Science. Passionate about software development, with a focus on web and game development. Notable programming skills include Microsoft .NET Framework, ASP.NET MVC, C#, Microsoft SQL Server, CSS, HTML, Bootstrap, and JavaScript.

WORK EXPERIENCE

Software Developer Co-op, *Campus Web Solutions* Auburn, AL (May 2021 – present)

- Worked as a full-stack developer, created web and mobile application software for students and faculty of Auburn University
- Worked in an agile development environment with a team of developers and tracked agile project management through Jira
- Utilized tools for front-end web development such as HTML, Razor, CSS, Bootstrap, JavaScript, jQuery, and Ajax
- Utilized tools for back-end web development such as Microsoft .NET Framework, ASP.NET MVC, C#, LINQ, and Microsoft SQL Server
- Created video tutorials for clients and used Microsoft SharePoint to create documentation for certain technical features

Cashier and Bagger, *Publix* Auburn, AL (Jun 2018 – Oct 2020)

Maintained robust customer-business relations by creating lasting relationships with customers, ensuring repeat and loyal clients.

SOFTWARE PROJECTS

Auburn University Event Ticketing (link)

- Worked with a small team to develop a web application that allows offices within Auburn University to transfer event tickets and parking passes to other offices and see an audit trail for both types of records
- Worked heavily on the reports pages, allowing users to see all tickets and parking passes that match a certain filter, and see a user report
- Implemented management tools for admins to create, edit and delete certain fields within the application (i.e., creating events)

Improvements/Fixes to Other Web and Mobile Applications
